The quota reform movement has been going on in Bangladesh for the past 1 month. The movement started for quota reform, but now it has taken the form of the fall of the government. People from all over the world have come to the field.

The quota reform movement started on 1 July 2024. Ordinary students continue to carry out the movement smoothly. But at one stage, Bangladesh Prime Minister Sheikh Hasina's negative statement, "The freedom fighters' grandsons will not get the quota, but the Razakars will get it", the movement took a different form. Non-cooperation movement started. However, on July 18, it is said that the police have carried out indiscriminate killings by shutting down the internet across the country.

More takes a different form. Unable to accept the behavior of the government by shutting down the internet for almost 1 week, the students started protesting again and again. Common people, teachers, lawyers, mass media workers and celebrities started joining. After about 1 month, the quota reform movement took a different form. All have the same demand "I want the fall of the government".
